

LEADING THE WAY IN AGRICULTURE

In uncertain and changing times in agriculture it is good to know those who have never changed their mission and standard of quality products and service in agribusiness. At **Circle S Farm Supply**, it has always been and still remains our

mission to **help you accomplish your goals in the field**. We at Circle S Farm Supply offer a vast line of agriculture related products. However, our specialty is Liquid Plant Food. We have been **Leading The Way in Agriculture** for over 40 years in the Liquid Plant Food Industry. Liquid Plant Food has proven to be a very effective and a sustainable practice in agriculture. By using soil and tissue tests we have developed Liquid Plant Food programs and helped many producers accomplish **higher yields, improve grain quality, and almost always harvest grain with less moisture content**.

Banding Liquid Plant Food is a very effective and economical practice allowing for quicker and more complete nutrient uptake to the plant and in many cases offers a significant savings in your input cost. We offer a complete line of N, P, and K Plant Food products, as well as a complete line of **minor elements** made from the **highest quality raw materials with no heavy metals and low salt index**.

****Let Us see If We Can Help You MINIMIZE Input Cost.****
